The Graff Difference

At Graff: Foot, Ankle & Wound Care, our board-certified, award winning doctors and expert medical staff are dedicated to ensuring your visit to our office is positive, comfortable and customized to your needs. We encourage our staff to strive for excellence in the areas of education, training, and interaction with patients so that from the moment you contact us, each patient receives exceptional customer service.

In addition to our Plano and multiple DFW locations, we also offer Telemedicine visits. Our mobile clinic is available to come to your PCP office, senior living facility, health fairs and local events.

Mobile Podiatry and Wound Care Clinic

Graff: Foot, Ankle & Wound Care offers the convenience of coming to your facility when you're not able to come to us. Serving the Dallas-Fort Worth Metroplex, our state-of-the-art mobile clinic provides on-site foot, ankle and wound care for PCP offices, 55+ communities, assisted living facilities, nursing homes, health fairs and local events.

Our team is equipped to provide foot and ankle exams, advanced wound care treatments and minor surgical procedures such as ingrown nails, wart removal and injections. Additionally, we can conduct molecular diagnostic and vascular testing, dispense durable medical equipment such as diabetic shoes, custom braces, custom orthotics and more.

At **Graff: Foot, Ankle & Wound Care**, we strive to go above and beyond to make sure adequate diagnosis and treatment are accessible to those who need it.
